- as • Gum & Oral Cavity massage
- Rinse & Gargle
- in • Gum • Oral Hygiene complaints
- Onset of relief in 2-3 applications
- Marked improvement in 2-3 days

INDICATIONS

GUMS : Gingivitis, Bleeding, Swollen, Painful Gums

MOUTH & THROAT : Stomatitis, Glossitis, Pharyngitis, Tonsillitis, Ptyalism, Halitosis.

ORAL MUCOSAL LESIONS : Leukoplakia etc.

G32 Mouth Paint : Stops bleeding, reduces inflammation, restores the firm texture of the gums & the normal orange peel appearance of the gingiva.

How to use G32 Mouth Paint

• Take 2-3 drops of G32 Mouth Paint on finger tip • Apply it over gums and inside the whole mouth • Gently massage the affected parts with finger • Hold and swirl with cheek movements for 5 minutes • Then rinse and gargle with fresh water.

• Repeat 2-3 times a day as necessary.

As Pack or as Lining : after Oral surgical management in indications mentioned above

Note : In those Oral conditions where Gum massage is not possible, apply G32 and leave in place for a few minutes, then rinse and gargle.

for Better results : Last application at bed time and let it remain overnight. Rinse and gargle in the morning.

G32 is safe; no adverse local or systemic effects

G32 available at Chemists in Bottle PACKS of 15 ml.

G32 is also available in easily crushable tablet form in PACK of 50 & 100 tabs
