Khurasani ajmo, Kel pan raakh, Vacha, Dhatura leaves (Detoxicated)

**Even in severe cases:** 3-6 tablets at a time give relief within 5-15 minutes.

**In Chronic cases:** Gives quick & long lasting relief.

SOOKTYN is a formula of selected Ayurvedic drugs, in the over all management of Hyperacidity and allied conditions.

**positive advantages of SOOKTYN treatment**

• Detoxicates the digestive tract. • Protects stomach and intestine from Irritants and relieves pain. • Exerts action throughout the length of the gut and allows thorough elimination of unabsorbed residues and thus helps in normal peristalsis. • Having liver corrective properties. Helps digestion, assimilation, morning evacuation and relieves gastric irritation. • Helpful in healing of Duodenal and Gastric ulcers. • Exerts beneficial effect on the central regulatory mechanism. • Safe Tranquillizing effect without any harmful effect on G.I. System.

**INDICATION**

• Hyperacidity syndrome, heart-burn, pain after food, acid eructation, nausea, dyspepsia, pyalism, vomiting.  
• Loss of appetite, flatulence, gastritis. • **during Pregnancy:** for heart-burn, nausea, vomiting.  
• **pre-operative:** to control symptoms in duodenal and gastric ulcers. • **Drug induced gastritis:** e.g. gastritis due to treatment with aspirin, pyrazolones, indomethacin, cortisone, broad spectrum antibiotics etc.

**In the Aged, Hospitalised & Bed ridden patients:** to help digestion, assimilation and morning evacuation.

**Children:** In flatulence, dyspepsia, gripe symptoms, vomiting and loss of appetite.

**In functional dyspepsia & hyperacidity syndrome :** to relieve nocturnal pain; pain free intervals are long and in some cases pain completely disappears.

**Dyspepsia & hyperacidity syndrome due to:** Alcoholic drink, excess of hot or cold drinks e.g. coffee, tea, aerated water;

heavy smoking and tobacco chewing.

**Nausea & discomfort:** after heavy or disagreeable meals or drinks.

**Before, during or after alcoholic drinks:** to avoid untoward effects e.g. dyspepsia, nausea, vomiting & hangover. Also improves bowel movement and promotes feeling of freshness next-day.

**DOSE**

2 tabs. thrice a day between or after principal meals.

**In severe symptoms:** 3-6 tabs. three or four times a day. Then gradually reduce the dose.

**In the Aged, Hospitalised or Bed-ridden:** 1-2 tabs. thrice a day after meals.

**In children :** ½ to 1 tabs thrice a day. Tablet can be crushed and mixed with milk, fruit juice or water for easy administration.
